## LYSOL® Disinfectant Spray

### DESCRIPTION

LYSOL® Disinfectant Spray is an EPA registered disinfectant that kills more than 99.9% of illness causing bacteria and viruses on environmental surfaces in your home.\* Unlike other sanitizing products which only kill bacteria, LYSOL® Disinfectant Spray even kills nasty viruses that can cause illnesses such as the flu, the common cold, and infectious diarrhea among young children. It even works to control the growth of mold and mildew, among the most common type of allergens, on surfaces you seldom think of like plastic shower curtains. Mold spores are among the most common types of allergens in your home all year long. So killing mold and mildew can help to reduce your exposure. No wonder its the #1 brand recommended by pediatricians. LYSOL® Disinfectant Spray can be used throughout your home on surfaces such as:

- doorknobs
- telephones
- counter tops
- sinks
- garbage cans
- diaper pails
- toilet areas
- faucets
- couches/sofas
- mattresses
- pillows
- upholstery
- backpacks

Use LYSOL® Disinfectant Spray to eliminate the following bacteria, fungi and viruses on hard non-porous surfaces\*:

### Viruses

- Influenza
- Rhinovirus (the leading cause of the common cold)
- Rotavirus (the leading cause of infectious diarrhea in children)
- Respiratory Syncytial Virus (RSV) (the leading cause of lower respiratory infection in children)

### Bacteria

- Staph MRSA and Strep
- E.Coli
- Salmonella
- Campylobacter

### Fungi

- Athlete's
- Foot Fungus
- Mold
- Mildew

\*When used as directed

LYSOL® Disinfectant Spray comes in 7 fresh and clean scents:

- Crisp Linen®
- Spring Waterfall®
- Early Morning Breeze™
- Garden Mist™
- Summer Breeze™
- Country Scent®
- Citrus Meadows™

LYSOL® Disinfectant Spray comes in 2 sizes: 12.5 oz. & 19.0 oz. Crisp Linen® is also available in a 6.0 oz. size. LYSOL® To Go provides portable disinfection in a 1 oz. size. Professional LYSOL® Disinfectant Spray is available in 19oz

### USAGE INSTRUCTIONS

Hold container upright 6" to 8" from surface.

#### To Disinfect:

- For pre-cleaned surfaces: Spray 2 to 3 seconds until covered with mist. Allow to stand for 10 minutes to air dry.
- For hard non-porous food contact surfaces: Spray until covered with mist, let stand for 10 minutes, then rinse thoroughly.

#### To Sanitize:

- Spray until covered with mist, let stand for 30 seconds.

### COLD & FLU FACTS

Did you know the Flu virus can live on surfaces for days?
